

# Why invest in the UK?

The UK offers global businesses one of the best and most ambitious ecosystems in the world to grow innovative companies

The UK is the biggest market in Europe and 3rd in the world as far as e-commerce is concerned.

The UK became the first major economy to adopt a legally binding obligation to reach net zero greenhouse gas emissions by 2050.

InPost is the leading modern logistics services provider in Europe, including out-of-home delivery with **more than 50,000 pick-up points and over 30,000 Automated Parcel Machines**, as well as to-door courier and fulfilment services for e-commerce.

**In 2022**, InPost Group **handled 744.9 m parcel deliveries** across key geographies: Poland, UK, Italy, Iberian Peninsula, as well as France and Benelux, through its subsidiary, Mondial Relay. InPost offers an affordable and eco-friendly parcel locker service throughout the UK, **which supports national net zero ambition by offering 66% lower CO<sub>2</sub> emissions per parcel**.

**The UK is the largest e-commerce market in Europe**, so it was a natural direction for InPost's expansion. InPost saw exceptional demand for its services in the UK and **installed 5,000th locker**, an important milestone as company continues to leverage the positive momentum in the UK. In 2022 InPost served **over 2 million individual customers**, both for returns and parcel delivery. In July 2023 InPost acquired 30% of the UK's leading logistics company Menzies Distribution Group for £49.3m and secured a three-year option to purchase the remaining 70%. The strategic partnership with Menzies is seen as a significant step towards establishing InPost as the leading out-of-home parcel provider in the UK market.

## 2nd

largest market for InPost outside of Poland (organic growth)

## 20.5 mln

parcels delivered in 2022 in the UK
