

# Why invest in the UK?

The UK has developed a world-leading offer for investors across the clean growth economy.

The UK offers global businesses one of the best and most ambitious ecosystems in the world to grow innovative companies.

The UK presents a fantastic opportunity for dynamic business growth, market and product diversification.

TFKable Group **is one of the global leaders** in wires and cable systems. Following a stable development strategy, the British company **JDR Cable Systems joined TFKable Group in August 2017, forming TFK Group**. This merger has positioned TFK Group as a leader in producing subsea umbilical cable systems for medium and high voltage applications, as well as **Intervention Workover Control Systems (IWOCs)** used in the energy extraction and renewable energy sectors. With this collaboration, TFKable Group has become one of the **most specialized and technologically advanced suppliers** of high and extra-high-voltage cable systems.

The UK is among the most attractive places in the world for investing in offshore wind, with a world-leading **ambition to deploy up to 50GW by 2030**, including **up to 5GW from floating offshore wind**. Since 2017, JDR and TFKable have **benefitted from each other's know-how and achieved success by securing more than 50 offshore wind project contracts**. Starting from 2022, they have been providing subsea cables for the **first commercial wind farms** in the US and Taiwan, as well as for the world's largest installed wind farm, Hornsea 2, located in the UK.
